SONOS

SUB works with all Sonos amplified components. See below for details.

SUB BENEFITS

ALL SOUND, ZERO VIBRATION

Two force-cancelling speakers positioned face-to-face means all the sound and energy from the music comes through loud and clear, and none of it is lost in cabinet buzz or rattle.

ONE-BUTTON SETUP

No wiring. No programming. Press one button, follow the simple prompts on your Controller and the system automatically adjusts audio settings to perfectly balance your SUB and the paired Sonos component for a flawlessly optimized, whole-room listening experience.

WHEREVER YOU WANT IT

Because it's wireless and designed to perform perfectly, whether positioned horizontally or vertically, you can put the SUB anywhere you want in the room—even lying flat under a couch.

PERFECT FOR ANY SONOS SETUP

Combine SUB with PLAYBAR to create a jaw-dropping 5.1 home theater surround sound system, or pair SUB with any Sonos speaker to add face-melting bass to your favorite songs in any room. Sonos 3.1 or 5.1 home theater requires one product plugged into your router, such as PLAYBAR or BOOST.

CONNECT SUB TO SONOS AMPLIFIED COMPONENTS

SUB works with—CONNECT:AMP/ZP120/ZP100; PLAY:5/ ZonePlayer S5; PLAY:3, PLAY:1 and PLAYBAR. Does not work with the non-amplified SONOS CONNECT/ ZP90/ZP80.
